Art Unit: 1621

Claims 1-7 and 9-62 are pending in this application. The prior rejections under 35 U.S.C. 102 (b) and 35 U.S.C. 112 are withdrawn in view of applicants' amendments and arguments. Claims 46-60 are held withdrawn for the reasons of record.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 2-7 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the definitions of substituents listed, does not reasonably provide enablement for all possible substituents encompassed by applicants' "comprising" terminology. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims. Applicants are requested to use "selected from the group consisting of" or similar phrasing.

Claims 2-7 are rejected under 35 U.S.C. 112, fourth paragraph, as failing to further limit the claims from which they depend. Not only are the claims broader by using the "comprising" terminology, but the definitions for R4 are also broader than those of claim 1 in claims 2, 3 and 5-7.

Claims 1, 11-45, 61 and 62 are allowable.
